George A. Treadwell Mining Company,

27 William St., New York. To my friends again:

Some time ago I advised you to sell your Greene Consolidated stock, which was then quoted at \$30 a share, and buy George A. Treadwell Company stock at \$7.50 a share, thus getting four shares of the G. A. T. stock for one Since then the Greene has gone down and the

Since then the Greene has gone down and the G. A. T. stock has gone up.

Many of you accepted my advice and have profited by the transaction.

I still think it is for your interest to sell Greene stock and buy Treadwell, for the follow-

ing reasons:

1. The Greene Company is capitalized at six million dollars, the Treadwell Company at only three millions. Other things being equal, therefore, one share of the Treadwell is equal to two

shares of the Greene.

2. The property of the Treadwell Company is at least the equivalent in area and in the probable extent of its ore bodies, of the Greene

The ores of the Verde Copper Belt, where

3. The ores of the Verde Copper Belt, where the Treadwell Company mines are situated, have nearly or quite twice the percentage of copper that the ores of the Cananeas—where the Greene property lies—have. The Verde Belt ores aver-age about ten per cent, copper and the Cananea ores about five per cent. 4. The ores of the Cananeas have low and those of the Verde Belt high values in gold and silver. With low-priced copper this consideration is of the utmost importance.

with low-priced copper this consideration is of the utmost importance.

5. The Verde District has a very great advan-tage over the Cananca District in its accessi-bility, its comparative nearness to market and its cheaper freight rates.

6. The Verde District has whatever further ad-vantage results to it from being in the United States and under the jurisdiction of the Stars and Stripes.

and Stripes.

7. The Greene Consolidated Company has a more extensive and expensive equipment than that of the Treadwell Company—although that of the Treadwell Company is by no means small and is being rapidly increased—but it has also a large indebtedness incurred in procuring this equipment. The Treadwell Company is free from debt and pays its way as it goes. I would rather have a smaller equipment than owe so much for a larger one. All things considered, I believe the stock of

the George A. Treadwell Mining Company is a safer and better investment than any other mining stock open to the investing public.

It is because I think so that the company

GEORGE A. TREADWELL.
